

HA - Inferring emotions

Read the sentences below. Can you use the clues to tell you how the character is feeling and match the sentences to the correct emotion?

1. After her friend did something nice, Megan smiled, walked up to them and wrapped her arms around them in a big hug.

excited	happy	frustrated	angry	surprised
---------	-------	------------	-------	-----------

2. "UGH!" Melissa sighed loudly. "I always get into trouble when it isn't even my fault!" she thought. She marched to the back of the line and folded her arms over her chest. She squinted her eyes and Liam. It was HIS fault.

excited	sad	happy	angry	surprised
---------	-----	-------	-------	-----------

3. The day had finally arrived; I'd been counting down the days for weeks. I woke up before my alarm and rushed to get ready. I grabbed my toothbrush, threw it in my suitcase and quickly ran downstairs. I just had enough time to have some breakfast before the taxi arrived to take me to the airport.

excited	frightened	happy	shy	surprised
---------	------------	-------	-----	-----------

4. Jake ran upstairs, flung the door open and immediately started searching through the piles of mess he'd left all over his bedroom. "Where could it be?" he thought. He looked under his bed, in his wardrobe; he even emptied out the bin. He looked in one of his drawers and felt it! He thought it had gone. His felt like he could breathe again. He took a deep breath and went back downstairs.

excited	relieved	happy	frustrated	upset
---------	----------	-------	------------	-------

5. Lisa growled as her alarm went off. She pressed the snooze button, rolled over and pulled the covers back over her head. Five minutes later, it sounded again. Lisa reached a hand out of the covers and hit the alarm clock until it stopped. She threw the covers off her and stomped to the bathroom to get ready. Her brother passed her and said "Good morning!" Lisa just grunted back.

shocked	grumpy	happy	angry	shy
---------	--------	-------	-------	-----

CHALLENGE - Create your own sentences to describe someone who is feeling scared. Can you describe what their body and face would do and what they might say, without saying the emotion?
