

KS2 Arrows Archery Competition

11th January 2022

On Tuesday 11th January 2022, six of our KS2 students were selected to compete in this years Arrows Archery competition at Wrekin College in Telford. Our students took part in two challenges, the first one focused on aiming at a target and each student had three attempts at hitting the target. The second challenge focused on range; the students had to fire their arrows as far as possible to gain points for their team. All our students were a pleasure to take to represent the Academy and challenged all the other schools involved in the event. As an Academy, we managed to gain 124 points throughout the afternoon which was a great achievement for the students – being their first archery event they have competed in. Congratulations to our KS2 students who enjoyed the event, respected their opposition and competed to a high standard. We look forward to seeing them in future events.
